THOR CAMPBELL
PATENT EXAMINER

Allowable Subject Matter

Claims 11-18 are allowed.

The following is an examiner's statement of reasons for allowance: Although the prior art teaches the combination of a pressure washer, comprising a frame; an engine mounted to said frame; a pump coupled to said engine for pumping a liquid; a pulse hose for absorbing pressure pulsation in the liquid induced by pumping, the prior art fails to explicitly teach or suggest the above in combination with a pulse hose retainer for retaining said pulse hose, wherein the pulse hose retainer comprises a body having a first aperture and a second aperture, the first aperture being suitable for receiving said pulse hose, and the second aperture being suitable for securing said pulse hose retainer to said frame. In the examiner's opinion, the combination could only be arrived at through improper hindsight, since there is no suggestion of a problem needing to be addressed with the prior art pulse hose dampeners.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thor S. Campbell whose telephone number is 703-306-9042. The examiner can normally be reached on Tue-Fri 5:30AM-4:00PM.
